KL Event Driven UCITS Fund (the "Fund") a sub-fund of KL UCITS ICAV (the "ICAV") Class B USD Shares (ISIN: IE00BYXZ2F80) This Fund is managed by KBA Consulting Management Limited (the "Manager")								
Objectives and Investment Policy								
<p>The investment objective of the Fund is to generate positive absolute risk-adjusted returns through a risk arbitrage investment strategy, which seeks to realise the price differential between the market price of securities and the anticipated value of those securities following the completion or termination of a transaction. To identify investment opportunities, the Fund's investment manager utilises a fundamental research process, which includes evaluating a transaction's likely completion, the securities' anticipated value and a transaction's expected timeframe.</p> <p>There are no restrictions on the issuers, markets or sectors in which the Fund may invest; however, it focuses primarily on European developed countries and North America, with potential limited exposure to Australia, New Zealand, Hong Kong, Japan, Malaysia, Singapore, Taiwan and Thailand. The Fund may invest in companies of all market capitalisations (including growth companies) but will generally invest in large and medium capitalisation companies. The Fund will invest in global equities and equity-related securities including common stock and preferred stock of companies that are involved in takeovers, mergers and reorganisations and will also utilise contracts-for-difference ("CFD"), options and forwards for investment purposes or in an attempt to reduce the Fund's risk exposure to adverse fluctuations in currency exchange rates. The Fund may invest up to 15% of its net assets in fixed and/or floating corporate bonds, including convertible bonds, of any maturity, with a broad spectrum of ratings ranging from Aaa (Moody's, Fitch, S&P) through to non-rated paper.</p>	<p>The Fund may not invest more than 10% of its net assets in collective investment schemes.</p> <p>The Fund is actively managed without reference to a benchmark. Investments in the portfolio are not specifically selected from the constituents of a benchmark, hence the Fund's investment policy is in no way constrained. Normally, the Fund's average leverage will be 100–200% of the Net Asset Value of the Fund, although higher levels are possible.</p> <p>You may buy and sell your shares weekly, every Thursday, except for Bank Holidays in Dublin or London. Orders to buy or sell can be made by submitting a request to the Administrator, SS&C Financial Services (Ireland) Limited, in accordance with the procedures set out in the Fund's supplement (the "Supplement"). Cleared payment for buy orders must be received by 5:00 pm (GMT) two business days in advance.</p> <p>The Fund's base currency is USD. The Fund may seek to hedge against currency fluctuations in non-USD investments. The Fund does not expect to pay any dividend distributions. Instead, any income and capital gains will be re-invested in the Fund.</p> <p>The Fund is suitable for investors who are seeking returns from a medium risk portfolio with a moderate level of volatility which has a medium-term horizon. For full investment objectives and policy details, please refer to the section entitled "Investment Objective and Policy" in the Supplement.</p>
